

Ocular Imaging Research and Reading Center

Device Certificate

Certificate ID: OIRRC-01-fe9c7523-G
Transmission Number(s): 20210309-021342756
Issue Date: May 05, 2021
Valid until: May 05, 2025

Test SH

Sponsor: test

Site: MedEye Associates
Address: 5858 Southwest 68th Street, South Miami, FL, United States
Site Code: USA113

| Device Information | |
|----------------------|-----------------|
| Device Modality | Spectral Domain |
| Device Manufacture | Optos, Inc. |
| Device Model | P200DTx |
| Device Serial Number | 008694 |
| Software Version | 6.3.2 |

The sample images submitted to the OIRRC (transmission # 20210309-021342756) relevant to the abovementioned device are compliant with requirements and standards of test imaging manual. The Ocular Imaging Research and Reading Center (OIRRC) is hereby issuing a certificate for the above-mentioned device for the use to obtain images in the test study.

This certificate is valid for **4 years** from the time it is issued provided that no major modifications, upgrades, updates, or repairs are made during that period. It is the responsibility of the PI and the study team at the Study Site to maintain the integrity of the certification status of the above- mentioned device. Please, communicate with the OIRRC regarding such modifications or other conditions that can possibly affect or compromise the certification status of the device.
